Appendix 1

Project: Music Presentation

Purpose:

The purpose of the presentation is to become familiar with a specific song and introduce it to the class using PowerPoint. To do so, you will need to learn in depth about the song, including the lyrics and the artist, and learn how to use PowerPoint effectively.

Procedure:

In each class, there is a specific task given. In the beginning of class, a leader needs to receive an instruction from the teacher and let the group know what the task is. There will be also a handout given, and the leader needs to check the attendance of the day and fill out the box. (This will be used when correcting the content and/or English with the teacher)

The group needs to discuss how to finish the task for that day, and 20 minutes before the class ends, the leader needs to report the progress by emailing the slides to <TEACHER EMAIL> and turning in the handout, and finally receive feedback.

Grading System:

Out of 20 points, 15 points will be given by the instructor. The other 5 points will be given by your classmates.

This is the content of your slideshow.
