## **Appendix A**

### ***Late student policy:***

Try not to be late because it disrupts the lesson when a student comes in late. Students who come to class after attendance has been taken will be recorded as being "absent." If you are late, please write your name (in English), the date, and briefly explain the reason why you are late (on a small piece of paper before you enter the classroom). Please give this note to the teacher when you enter the classroom and before you sit down. If you are NOT late by more than 20 minutes, your absent record will be changed to "late".

## **Appendix B**
