Schedule
Deadlines

My Name _____

Main Purpose of Exchange Project

1. Improve Language Skills

Japanese and English Exchange classes will help you improve your language ability in real situations, with real people.

2. Cooperation and Multicultural Exchange

You will have to cooperate with not only your own classmates, but other students from different cultures. You will learn to be open, respectful, and considerate of your thoughts and actions in this multicultural environment.

3. Critical Thinking: Insight

Insight is the ability to think deeply about a topic from different angles. You will also learn to find out solutions to problems by interviewing and conducting your own research. Finally, you will be able to develop a professional and informed opinion on a topic.

4. Life Skills

Managing a long term project is a difficult task. You will need to be prepared for yourself and for your other teammates as well. Plan, communicate, and ask questions to your classmates and teachers.

5. Improve Relationships

You have a golden opportunity on this campus: the chance to interact and make positive relationships with people from all over the world. These exchange classes will help you build relationships to improve your life now, and even after you graduate university.
